

The Ruhr area, one of Europe's largest metropolitan regions, offers attractive career opportunities for excellent scientists and scholars from around the world. In 2021, Ruhr-Universität Bochum, TU Dortmund University and the University of Duisburg-Essen established the Research Alliance Ruhr to bundle their cutting-edge international research on the most urgent challenges facing humankind. There will be four research centers and a college. This is just the latest chapter in our long-standing collaboration as the University Alliance Ruhr (UA Ruhr), a community of 14,000 researchers and 120,000 students in the heart of Germany.

As part of the Research Alliance Ruhr, the Research Center Trustworthy Data Science and Security (RC Trust) is seeking to fill the following position at the Faculty of Computer Science, Ruhr-Universität Bochum, as early as possible:

Professorship for Computing and Society (m/f/d) (Open Rank: W3 or W2 tenure track to W3)

YOUR RESPONSIBILITIES

The person selected to hold the new professorship for Computing and Society will specialize in research and teaching in the field of Computational Social Science, Social Computing, Economics in Computing and Privacy, and Usable Security. The teaching load is reduced to four weekly hours per semester. The successful candidate is expected to contribute to English-taught courses either in RUB's computer science or dedicated IT security study programs.

YOUR QUALIFICATION

The Center will enable research that connects computer science, cyber security & privacy, and society in order to increase trust in the digital world. Thus, we particularly welcome applications with a strong interest in interdisciplinary research. An ideal candidate will have publications in both technical outlets but also in areas such as law, psychology, sociology, economics or other humanities. Applicants should have an excellent track record in research in at least one of the following areas:

- Computational Social Science
- Social Computing and Computing Mediated Collaborative Work
- Economics & Incentives in Computing and Privacy
- Usable Security.

Applicants should complement the research activities of the Faculty of Computer Science and be willing to contribute to interdisciplinary collaborative research projects and collaborations within and outside the RC Trust and the Universities of the Research Alliance Ruhr. Prerequisites for the position are excellent scientific qualifications, usually demonstrated by a doctorate of outstanding quality, positive evaluation as a junior professor, habilitation or equivalent academic achievement, top international publications, as well as proof of suitability for academic teaching. Strong social and leadership skills and willingness to participate in academic self-administration complete your profile.

In the case of the W2 professorship with W3 tenure track, the successful candidate will initially be appointed as a temporary civil servant for five years. At the end of this five-year period at the latest, the tenure track will lead to continued employment as a tenured W3 university professor, provided that the necessary aptitude, competence and academic performance have been demonstrated and that the legal requirements pertaining to Section 38 of the North Rhine-Westphalia Higher Education Act (*HG NRW, Gesetz über die Hochschulen des Landes Nordrhein-Westfalen*) are met. In addition, the recruitment criteria of Sections 36 and 37 of the North Rhine-Westphalia Higher Education Act (*Gesetz über die Hochschulen des Landes Nordrhein-Westfalen, HG NRW*) apply.

ATTRACTIVE ENVIRONMENT

The professorship will be part of the newly established Research Center Trustworthy Data Science and Security. The Center will enable research that connects psychology, computer science, statistics, and cyber security in order to empower humans to understand, control and verify artificial intelligence technology as well as modern machine learning in (semi-) automated decision making.

The Research Center is linked to all three member universities of the University Alliance Ruhr. We offer you an excellent scientific environment and attractive opportunities for collaboration with renowned international, national, and regional partners. The professorship advertised here will be closely associated with the Faculty of Computer Science and the Horst Görtz Institute for IT Security (HGI). HGI is home to the Cluster of Excellence „CASA: Cyber Security in the Age of Large-Scale Adversaries“ funded with approximately 30 million euros by the DFG. In addition, a close collaboration with the Max Planck Institute for Security and Privacy (MPI-SP) is possible. These outstanding research institutions position Bochum with its extremely vibrant digital eco system as one of the leading research locations for IT Security in Europe. There is also ample opportunity to interact with the well-developed start-up community in the area of security and computer science.

RESEARCH ALLIANCE RUHR

The [Research Alliance Ruhr](#) is a joint undertaking of the three major universities in the Ruhr area and was initiated by the Ruhr Conference. The four research centers will focus on „One Health,“ „Chemical Sciences and Sustainability,“ „Trustworthy Data Science and Security,“ and „Future Energy Materials and Systems.“ In addition, the Research Alliance Ruhr is establishing a „College for Social Sciences and Humanities“.

The Research Alliance Ruhr will appoint up to 50 research professors in the next few years and also offer numerous positions for research assistants. Join us now to create innovations for the world of tomorrow in Europe's densest university landscape, where you can find a wide range of scientific and industrial partners right on the doorstep.

YOUR APPLICATION

If you are interested in the position, please send your application in a single PDF file by August 9, 2022 to:

career@casa.rub.de.

Please provide the usual documents: (1) CV, (2) list of publications, (3) documents demonstrating your academic and professional career, including copies of certificates, (4) an exposé of your research profile with reference to its relevance for the Research Center, (5) a list of successful external grant applications, (6) an overview of your experience in academic self-administration, and (7) a teaching-learning concept including information on your previous teaching activities.

Questions will be answered by Prof. Christof Paar:

OUR WELCOME SERVICES

Our Welcome Services are happy to assist especially international applicants and their families with relocating to the Ruhr area, an up-and-coming metropolitan region. We can advise you on housing in urban or more rural areas and help you find childcare if needed. Our Dual Career Service can help your partner with their own professional development in the region if requested.

DIVERSITY

The UA Ruhr promotes diversity and equal opportunities. We strive to significantly increase the percentage of women in research and teaching and therefore welcome applications from female academics. We give preference to severely disabled applicants if their qualifications meet the requirements.
